Hello and welcome to this month's Community policing report, which will focus on the new Control Strategy for Wiltshire Police.

Every year, Wiltshire Police assesses its operational priorities for the year ahead. Through a combination of research and consultation, the intelligence team identify the areas of criminality that present the biggest threat, harm and risk to our communities.

The resulting document is known as the control strategy, which is shown in the diagram below.

As has been the case in previous iterations of the Control Strategy, there are clear themes running through all the priority areas – Cyber Capabilities and Vulnerability and Exploitation. Digital technology is used to carry out offending in all of the above areas. And, at the heart of all the above, there are vulnerable victims, witnesses or offenders that are often being exploited.

The Control Strategy does not mean that we stop doing other areas of day to day business, or that other areas of demand or criminality aren't important. It is a means of providing additional focus on some of the areas that have the greatest threat, harm and risk to or risk to our communities.

OTHER INFORMATION

As of Monday 21st May the Community Coordinators have swapped areas of responsibility.

Pc Lee Pelling will now cover the area of Westbury, Warminster, Tisbury and Mere and can be contacted at lee.pelling@wiltshire.pnn.police.uk

Pc Charly Chilton will now cover the area of Trowbridge, Bradford on Avon and Melksham and can be contacted at charlotte.chilton@wiltshire.pnn.police.uk

COMMUNITY MESSAGING

We have received some very positive feedback around community messaging, and encourage you to speak to all members of your community and get them to sign up to Wiltshire Messaging. It is free and a very good way of keeping all of our communities connected.

CRIME EXCEPTIONS

These figures are based on an evaluation of data, over a two year rolling period. Using this data we can predict what figure is the average that should be reported in a specific month, and what are the higher and lower parameters that we may expect. Figures outside of these parameters are classed as 'Crime Exceptions'.

Unfortunately due to an IT issue, the data for May is currently not available. To ensure that this report reaches you in time for your meeting, the report will not include the crime exception figures. This data will be forwarded to you, once it becomes available.

COMMUNITY SPEEDWATCH CHECKS WITHIN YOUR AREA

Throughout May, Shaw / Whitley and the A350 at Beanacre were set as a target priority, meaning that Community Policing Team officers would conduct speed checks in order to support the Community Speedwatch Team.

Two checks were completed on the A350 at Beanacre. Two drivers were given words of advice with regards to their speed. No tickets were issued.

Four checks were completed in Shaw / Whitley. Two drivers were given words of advice with regards to their speed. No tickets were issued.
